

MIMOS Malaysian Higher Education Potential Inventory (Mi-PBT MHEPI)

The Malaysian Higher Education Potential Inventory (Mi-PBT MHEPI or MHEPI) is a psychometric assessment offered under the Mi-PBT paper-based test series. MHEPI provides information on critical attributes and attitudes required to predict students' academic readiness and success.

Overview

The Malaysian Higher Education Potential Inventory (MHEPI) is primarily used to gauge personality traits that are key ingredients of success for students (working towards an undergraduate, postgraduate or professional degree) in universities or colleges and in their employment following graduation.

MHEPI will help to determine if a student is:

- Able to communicate well with others
- Able to express their ideas clearly
- Able to think out of the box
- Motivated to learn
- Able to not plagiarise
- Able to plan and be organised in their studies
- Able to apply critical thinking in problem solving efficiently
- Able to handle stress and meet challenges
- Able to apply study skills effectively
- Able to work in teams successfully

Features

Malaysian Higher Education Potential Inventory (MHEPI) comprises the following features:

- **Predicts Academic Success**
MHEPI measures 10 important attributes that are key ingredients for success for students (working towards all levels of a degree) in universities or colleges and in employment following graduation.
- **Available in English and Bahasa Malaysia**
MHEPI is suitable for students aged 18 and above, and is available in English and Bahasa Malaysia versions.
- **Contains Valid and Non-Intrusive Questions**
Every question goes through a thorough process of review by experts to ensure that the test is both fair and relevant.
- **Provides Profiling Reports**
The MHEPI profiling report provides scores for the 10 attributes associated with academic success, together with interpretations of the scores. These numbers form a foundation to predict students' academic success in universities or colleges and future employment.
- **Multiple Administrative Media**
MHEPI can be taken in either a paper-based or a computer-based version. Each test taker may choose the medium which they are more comfortable with.

Technology Summary

Mi-PBT MHEPI

A test to assess **10** important attributes that are key ingredients of success for students (working towards an undergraduate, postgraduate, or professional degree) both in university and in employment following graduation.

Industry: Education

Features

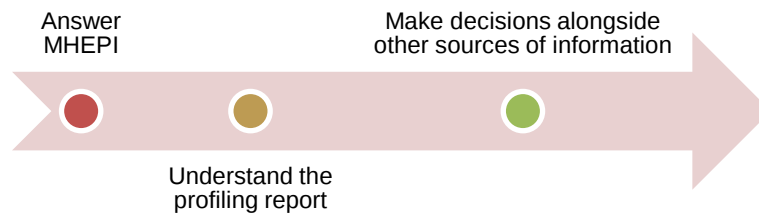

- Predicts academic success
- Available in English and Bahasa Malaysia
- Contains valid and non-intrusive questions
- Provides profiling reports
- Multiple administrative media

Advantages

- Identification of students' strengths and weaknesses
- Development of action plans
- Aid counsellor to provide guidance to students

Technology Benefits

- Designed and validated in Malaysia
- Comprehensive higher education potential assessment

MIMOS Malaysian Higher Education Potential Inventory usage

Advantages

Stakeholders can use MHEPI to make informed decisions with regards to:

- **Identification of Students' Strengths and Weaknesses**
MHEPI assesses critical attributes and attitudes required for academic readiness and success.
- **Development of Action Plans**
After students' strengths and weaknesses are identified, effective action plans can be tailored accordingly.
- **Aid Counsellor to Provide Guidance to Students**
Counsellors can use MHEPI as an assessment tool to evaluate and guide students toward achieving academic excellence.

Technology Benefits

MHEPI offers the following benefits to organisations:

- **Designed and Validated in Malaysia**
MHEPI was designed and validated among Malaysians to create a product specifically for use in Malaysia's multicultural context.
- **Comprehensive Higher Education Potential Assessment**
The student's profile provides crucial information on the student's critical attributes and attitudes, which are then used to predict their academic readiness and success.

MIMOS is the leader in ICT innovations, pioneering new market creations for partners through patentable technologies for economic growth. For more information on MIMOS technologies, contact mimossolutions@mimos.my or go to www.mimos.my.
