

MIMOS Malaysian Outstanding Scholars Assessment (Mi-PBT MOSA)

The Malaysian Outstanding Scholars Assessment (Mi-PBT MOSA or MOSA) is a psychometric assessment offered under the Mi-PBT paper-based test series. MOSA introduces a whole new perspective in candidate selection for scholarship awards or special programmes.

Overview

The Malaysian Outstanding Scholars Assessment (MOSA) introduces a whole new perspective in candidate selection from pools of undergraduate, postgraduate and professional degrees' scholars for scholarship awards or special programmes. Instead of relying on cognitive measures alone, MOSA accounts for candidates' personality attributes which yields superior predictions of academic success and student leadership.

In addition to conventional selection process (academic results and interviews), MOSA helps organisations determine candidates who:

- Demonstrate outstanding leadership
- Express thoughts with confidence
- Develop goals to succeed
- Are determined to excel in their studies
- Are able to face challenges
- Are able to make decisions for themselves
- Are proactive in their own learning
- Can cooperate with others to complete a task
- Are quick to adapt and adjust to new environments or changes
- Interact well with others
- Remain calm in the face of difficulties
- Have good time management
- Know how to put knowledge into practice
- Are able to think out of the box

Features

Malaysian Outstanding Scholars Assessment (MOSA) comprises the following features:

- **Screening Tool for University and College Admissions**
MOSA is applicable for use as a screening tool in university and college admissions. MOSA measures 7 personality traits that yields superior predictions of academic success and student leadership.
- **Available in English Bahasa Malaysia**
MOSA is suitable for individuals aged 18 and above, and is available in English and Bahasa Malaysia versions.
- **Contains Valid and Non-Intrusive Questions**
Every question goes through a thorough process of review by experts to ensure that the test is both fair and relevant.
- **Provides Profiling Reports**
The MOSA profiling report provides scores for the 7 personality traits, together with interpretations of the scores. This information sets the foundation for predicting whether a student will be able to adapt to circumstances and achieve success, as well as the probability of completing a particular study programme.
- **Multiple Administrative Media**
MOSA can be taken in either a paper-based or a computer-based version. Each test taker may choose the medium which they are more comfortable with to complete the questionnaire.

Technology Summary

Mi-PBT MOSA

A test to screen candidates applying for all levels of university or college degrees by accounting personal attributes, in addition to cognitive measures, which yields superior predictions of academic success and student leadership.

Industry: Education

Features

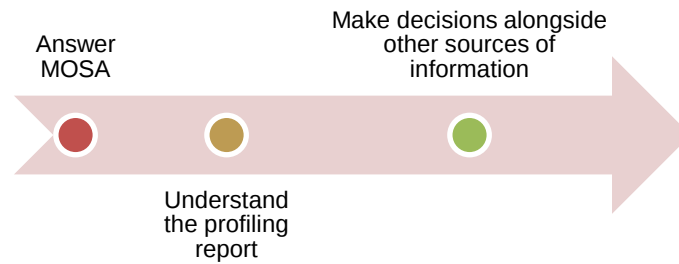

- Screening tool for university and college admissions

MIMOS Malaysian Outstanding Scholars Assessment usage

Advantages

Universities and colleges can utilise MOSA to screen for candidates who are most likely to thrive and succeed in their institutions for admissions. MOSA is also particularly useful for selecting candidates for scholarship awards or special programmes. MOSA can be used by stakeholders to:

- **Identify Students' Strengths and Weaknesses**

MOSA can be used to assess personality attributes required for predictions of academic success and student leadership.

- **Aid in Action Plan Development**

University stakeholders can utilise MOSA as a decision making tool in scholarship selection, course planning and intervention.

- **Aid Counsellors in Providing Guidance to Students**

Counsellors can employ MOSA as an aid tool for guiding students toward achieving academic success and in developing student leadership skills.
