INTRODUCTION

The Salihin Premier Solution (SPS), the first intelligent software in the world that can manage numerous aspects of accounting including Goods and Services Tax (GST), Zakat calculation, and Waqf customized specially for Small and Medium Enterprises (SMEs).

SPS is an efficient and effective accounting software that accommodates changes affecting invoicing and billing system of the business process. The software is powered by the latest security features to secure data or information for optimal integrity and confidentiality. It is tailor made for small and medium industries by professional accountants. Timely accurate and complete returns, reports and forms can be generated without hassle to facilitate payments and refunds, audits and timely submissions of GST. SPS has innovative checking and auditing system to ensure that GST returns meet all the statutory requirements.

The Zakat module makes SPS the first comprehensive accounting software with Zakat solution. It will make it easier than ever for Muslim businesses, corporations and organizations to determine the amount payable of Zakat. With Zakat feature built in, it is simply the best accounting software yet.

SYSTEM REQUIREMENTS

Minimum System Requirements

- Operating system must be Windows 7 and above
- Important note: Win XP and Win 2003 are not supported
- 1 GHz processor or higher
- 1GB or higher for RAM
- 10GB of hard disk space
- Microsoft Office 2010 and above
- A broadband internet connection will be required only for WAN environment and usage within an office will require a basic LAN configuration

LESSON ONE

MODULE: GENERAL SETUP

This module provide users the steps to setup the software in the user's machine.

1.0 How to Setup Company

After system installation, the first thing you have to set up is your company details. Company should function as the foundation of an accounting system that the business will use during future years.

1.0.1 Create/Add New Company

- Go to **General Setup > Company Setup > List**
- Click  button that located on top right page.

Company Master List									
# ▲	Company Name *	Company No.	Incorporate Date	Muslim Share	GST Registration No.	GST Registration Date	Taxable Period	Fax No.	Action

User Photo:	Choose File No file chosen 
  	

- ❓ Click the  button.

- ❓ Once click, you will be directed to Forget Password page
- ❓ Insert your new password, then click Submit
- ❓ Once submitted, there is a message to prompt that reset password is success.

The screenshot shows a 'Forget Password' form with a 'New Password' input field and a 'Submit' button. A red arrow points from the 'Submit' button to a green success message box that reads: 'Success! Password has been succesfully reset'.

! WARNING!

Super Administrator need to keep a copies of username and password of the registered user.

5.0 How to Setup Chart of Account

After you have registered your company and user master, next step is to setup your Chart of Account. In this part, you need to identify your Industry Classification and Type of Business.

- ❓ Go to **General Setup > Company Setup > Chart of Account Setup**
- ❓ You will be directed to page as shown below.

The screenshot shows the 'Chart of Account Setup' page. It features a sidebar with navigation links: Dashboard, General Ledger, Account Receivables, and Account Payables. The main content area has a header 'testertesting' and a search bar. Below the header, there are two dropdown menus: 'Industry Classification' and 'Type of Business', both with '--Please Select--' as the selected option. A 'Save' button is located to the right of these dropdowns. Below the dropdowns, there is a section titled 'Chart Of Account List' with a 'Print' button. The table below this section has columns: #, Account No., Account Name, and Account Group.

- ❓ Next, select your **Industry Classification** and **Type of Business** from the dropdown menu.
- ❓ Choose **General** for both. Chart of Account List will be listed automatically.

Then, click **Save** button.

Chart Of Account Setup LUQMAN ENTERPRISE

How to add new chart of account

- ❓ Go to **General ledger > Setup > Chart of Account**.
- ❓ Click  **button** to add account master.

Please add new the following chart of account:

Section: SOFP	Section: SOCI
Account Group: Current Assets	Account Group: Finance income
Account Code: 2200-100-01	Account Code: 9000-000-01
Account Name: Maybank Berhad	Account Name: Hibah

7.0 How to Setup Financial Year Calendar

- ❓ Go to **General ledger > Setup > Financial Year Calendar List**.
- ❓ Click  **button** on the top of right corner to add New **Financial Calendar List**.

The screenshot shows the 'Financial Calendar List' header with a green bar containing a plus button and a dropdown arrow. Below the header, there is a 'Show' dropdown set to '10' and a 'Search' input field. A table with columns 'Year', 'Period', 'Start Date', 'End Date', 'Month End Closing', and 'Action' is visible.

- ❓ You will be directed to **Financial Year Calendar page**.
- ❓ Select Year 2017.
- ❓ Start period = 1, No of period = 12
- ❓ Start date 01-01-2017
- ❓ Then, click  **button**.

The screenshot shows the 'Search Parameter' form with a green header bar. It contains input fields for 'Year' (set to 2016), 'Start Period' (set to 1), 'No. Of Period' (set to 12), 'Start Date' (set to 01-01-2016), and 'End Date' (set to 31-12-2016). A green 'Submit' button is located at the bottom right.

- ❓ The list of financial year calendar will be listed once you click  **button**.

- You will be directed to the editing page. Once completed, click **Submit** button to save.

9.0.2 How to Delete Terms List

- Go to General Setup > Terms Setup
- You will be directed to the Credit Terms and Condition List page.
- Identify the Terms that you want to remove.
- Click the  button that located in Action column to delete.

10.0 How to Setup Bank

Before setup Bank, you must ensure how many bank your company may use. If you have only one bank, then you can proceed to setup Bank. However, if more than one, you need to add new account code for each bank. It is because you require to each bank to each account code.

How to Add New Account Code

SPS have already set up Chart of Account by default. However, you can change chart of account as you prefer. For example, when you have a new customer, you need to create a new ledger for his/her account. Any related transaction to that customer will be recorded into the ledger that you have created.

You can see the different of this account ledger in **Statement of Financial Position Report** and **Statement of Comprehensive Income Report**.

- Go to **General Ledger > Setup > Chart of Account**.
- There are two sections of Company Master Group.
 - Statement of financial position (SOFPI)
 - Statement of comprehensive income (SOCI)

- ❓ To add new account master, click  button that located on top right of page either under SOFP or SOCI section.

- ❓ Next, select **Account Group (Current Asset)**
- ❓ Type your **Account Code (2200-100-01)**
- ❓ **Account Name (Maybank Berhad)**
- ❓ Then click **Submit** button to save
- ❓ To delete, click Delete button.

If you have three banks, you need to add two more new account codes. Then you can proceed to bank setup.

- ? Go To **General Setup > Bank Setup**. The Bank Master List window appears.
- ? Click on **+** Button on the top right-side of the page to add **New Bank**.

The 'Bank Master List' window has a green header bar with 'Bank Master List' on the left and 'Print' and '+' buttons on the right. Below the header, there is a 'Show' dropdown set to '10' and a 'Search' text box. A table with columns: '#', '*Bank Name', 'Branch', 'Bank Account No.', 'Address', 'Phone No.', 'Fax No.', 'Email', and 'Action' is shown. The table is currently empty, displaying 'No data available in table' and 'Showing 0 to 0 of 0 entries'. Navigation buttons 'First', 'Previous', 'Next', and 'Last' are at the bottom right.

- ? You will be directed to the page where you can enter all the required information.
 - o Bank Name: Maybank Berhad
 - o Bank Short Name: MBB

The 'Bank Master' form has a green header bar with 'Bank Master' on the left and 'Clear Form' and a dropdown arrow on the right. The form contains several input fields: '*Bank Name' (MAYBANK), 'Bank Short Name' (MBB), 'Branch' (MENARA), 'Bank Account No.' (1600125695), and 'Current Balance' (0).

- ? Once completed, click **Submit** button to save.
- ? Under others information section, user needs to choose linked account ID with the related chart of account.

The 'Others Information' form has a green header bar with 'Others Information' on the left and a dropdown arrow on the right. The form contains: 'General Note' (text area), 'Linked Account ID' (dropdown menu showing '2200-100-01 [Maybank Berhad]' and highlighted with a red box), and 'Currency ID' (dropdown menu showing 'MYR [Ringgit Malaysia]'). At the bottom right are 'Hide prompts' and 'Submit' buttons.

Please add Cash using similar step you setup Bank as detail below:

Bank name: Cash in Hand

Bank short name: Cash in Hand

Branch: HQ

Account Bank: 1

Current Balance: RM12, 500

Linked Account ID: 2200-200-00 [Cash in Hand]

10.0.1 How to View/Edit Bank Listing

- ? Go To **General Setup > Bank Setup**. The Bank Master List window appears.
- ? In the search field, you can search any particular bank by entering the bank name.

2.2 How to generate Account Balance Summary

In this section, you can generate report for each ledger by select account number. You can ensure each ledger is recorded correctly.

- ❑ Go to **General ledger > Report > Account Balance Summary**
- ❑ Select **Year (2017)**, **Period 1** and **Account Number (Maybank)**
- ❑ Click  **button** to generate the report.

The screenshot shows a web interface for generating an 'Account Balance Summary' report. At the top is a green header bar with the title 'Account Balance Summary' and a dropdown arrow. Below the header is a form with three main input fields: 'Year' with a dropdown menu showing '2016', 'From Period' with a dropdown menu showing '1 [01-01-2016 - 31-01-2016]', and 'Account Number' with a dropdown menu showing '--Please Select--'. To the right of the 'From Period' field is a 'To' field with a dropdown menu showing '1 [01-01-2016 - 31-01-2016]'. At the bottom right of the form is an orange button labeled 'Generate Report'.

- ❑ Once the report is generated, you can print by clicking  **button**.
- ❑ You will be directed to printing page.
- ❑ To print, click  button.
- ❑ You may convert into excel by clicking  button.

LESSON THREE

MODULE 1: ACCOUNT PAYABLE (SERVICES)

Account Payable is money which a company owes to Supplier for goods and services purchased on credit. This item appears on the company Statement of Financial Position as a current liability, since the expectation is that the liability will be fulfilled in less than a year.

MODULE 2: ACCOUNT RECEIVABLE (SERVICES)

Account Receivable is money which a customer owes to company for goods and services sold on credit. This item appears on the company Statement of Financial Position as a current asset, since the expectation is that the asset will be fulfilled in less than a year.

MODULE 1: ACCOUNT PAYABLE (SERVICES)

1.0 How to Setup Supplier

- ❓ Go to **Account Payable > Setup > Supplier Setup**
- ❓ Click  button on the right top of the pages, to **setup a New Supplier**.

- ❓ You will be directed to the Supplier information page.

- ❓ Enter:
 - Supplier Code (**H01**)
 - Supplier Company No (**2345 H**) and
 - Supplier Name (**Husin Group Berhad**)
- ❓ If your Supplier is GST registrant, enter the GST Registration No. If not, just leave it blank.
- ❓ You must verify your supplier whether they register with Customs or not.

Address Information				▼
Address	5-7, 3 1/2 Miles			
	Jalan Kelang Lama

MODULE 2: ACCOUNT RECEIVABLE (SERVICES)

4.0 How to Setup Customer

- Go to **Account Receivable > Setup > Customer Setup**
- To add customer, click  button that located at the top right page.

Customer Master List							Print	
#	Customer Name	City	Phone No.	Fax No.	E-mail	Action		
No data available in table								
Showing 0 to 0 of 0 entries								

- You will be directed to customer master page.
- Enter your customer information

Customer Master				▼
Customer Code	H01			
Customer Company No.	5600 H	GST Registration No.	000075014140	
Customer Name	Hasan Enterprise			

- Enter address information

Address Information				▼
Address	17-A, Level 2			
	Setapak Mall			
City	Kuala Lumpur	Postcode	50300	
Country	MALAYSIA	State	KUALA LUMPUR	

- ❓ The most important thing is to choose Supplier **Linked A/R Account**. You can create new supplier chart of account by click dropdown button. Your supplier will be distinguished by linked A/P account in the Statement of Financial Position

Please setup customer chart of account as follow:

- Account Group: **Current Asset**
- Account Code: **2100-001-00**
- Account Name: **Hasan Enterprise**

The screenshot shows the 'Others Information' section of a software interface. It contains several input fields: 'General Note' (text area), 'Term' (dropdown menu showing '30 Days'), 'Credit Limit' (text field), 'Linked AR Account' (dropdown menu showing '2100-001-00 [Hasan Enterprise]' with a red box around it and a red arrow pointing to it), 'Created Date' (calendar icon and text field showing '01-02-2016'), and 'Currency' (dropdown menu showing 'MYR [Ringgit Malaysia]'). There is also a 'Credit Limit Alert' checkbox. At the bottom right, there are two buttons: 'Hide prompts' (orange) and 'Submit' (green).

- Once completed, click **Submit** button to save.

4.1 How to Create Direct Sales Invoice

SERVICES (DOES NOT MAINTAIN INVENTORY)

- ? Go to **Account Receivables > Transaction > Direct Sales Invoice**
- ? Enter Form Number if necessary but the serial number will generate automatically.
- ? Select Date (1.2.2017)
 - If you did not change the date, it will record the current date
- ? Select the Customer (**Hasan**)
- ? Insert the Customer PO Number (**1001**)
- ? Terms (**30 Days**), and Shipping Method (**Freight**) from the drop down list.
- ? Any description or reminder can be included in the Memo.

LESSON FOUR

MODULE: GOODS AND SERVICES TAX

This module provide user with the GST transaction and reports required by Customs in GST submission.

1.0 How to Setup Tax Table List

We have already put this setup under default setting. You need to know there are 23 GST codes as suggested by Customs. However, you may select the codes that applicable to your business only. You can also add some codes if you think it is appropriate to do so. You may study the codes attached in appendix 1.

To add, follow the steps below:

- ❑ Go to **Goods & Services Tax > Setup > Tax Table List**
- ❑ Click  button to add tax table list. Then, you will be directed to the following page.

- ❑ Enter Code, Name, Tax (%) and Description.
- ❑ Select Tax Class, Tax Group, Tax Type and Link Account ID
- ❑ Then, click  button.

- To modify, click on the tax code in **Code** column.
- You will be directed to the Tax Table Master page. Then, click **Submit** button.

Tax Table Master List										
Show 10 entries		Search								
#	Code	Name	Tax Type	Tax(%)	Tax Class	Tax Group	Description	Link Account ID	Status	Action

9		SLT	SALES TAX
10		SVT	SERVICE TAX
Showing 1 to 10 of 20 entries			
		First	Previous 1 2 Next Last

1.4 How to Setup GST Preference

In this section, you need to do financial setting regarding the GST matters. These matters, however, can affect your cash flow. The matters are include:

- ✓ Bad debt Relief (you may claim bad debt relief for at least after six month)
- ✓ Days Limit (days limit for issuing invoice)
- ✓ Maximum Input Tax Claim (the maximum amount you want to claim for each submission)
- ✓ Verification of Supplier GST registration (how frequent you verify the GST registration)

To setup GST Preference, follow the step below:

- Go to **Goods & Services Tax > Setup > GST Preference**
- Enter the information required in the box. Then, click **Save** button.

The screenshot shows the 'GST Preferences' window with a green header bar. Below the header, there are four input fields with their respective values: 'Bad Debt Relief Min. Month' (6), 'Days Limits' (21), 'Max Input Tax Claim' (30), and 'Supplier GST Registration Verification frequency (Month)' (1). A green 'Save' button is located at the bottom right of the form.

Field Name	Value
Bad Debt Relief Min. Month	6
Days Limits	21
Max Input Tax Claim	30
Supplier GST Registration Verification frequency (Month)	1

1.5 How to Set GST Tax Mapping

In this section, it is important for you to know where the GST code will be mapping to GST-03 Form. If you are not certain with the direction, you may ask our support team. This section as recommended by Customs Department may be changing in the future. Thus, you may edit the tax code to map with GST-03.

To setup GST Tax mapping, follow the step below:

? Go to **Goods & Services Tax > Setup > GST Tax Mapping**

GST Field List

- ❓ To export file into GAF format, click **Export GAF** button at the bottom.

2.0.2 Bad Debt Relief

- Under paragraph 143 & 144 of the General Guide issued by RMCD, “A taxable person is entitled to a relief for bad debt on the whole or any part of the tax paid by him in respect of a taxable supply if:-
 - the person has not received any payment in respect of the taxable supply from the debtor six months from the date of supply or the debtor has become insolvent before the period of six months has elapsed; and
 - Sufficient efforts have been made by him to recover the debt.
 - The date of supply refers to the date of invoice issued. A person is entitled to claim bad debt relief even though the bad debt is not written off from his books.
- ☐ Go to **Goods & Services Tax > Transaction > Bad Debt Relief**
☐ Select **Customer Name (Hasan Enterprise)** and **Date (1.9.2017)**,
☐ Then click **Submit** button.

2.0.6 GST Journal

- ? There are certain transactions that need special treatment in GST. These transactions include:
 - ? Deemed Supplies
 - ? Imported Services
 - ? Imported Goods and
 - ? Apportionment
- The supply of goods without consideration under GST Act 2014 is deemed to be a supply called **“deemed supplies”**. The rationale behind this is that if supplies were not deemed, the goods are being enjoyed by the recipient tax free, while input tax incurred on the purchase of the goods would have been claimed by the business.

Examples of deemed supply

- ? Gifts to customers
- ? Goods taken for private use
- ? Disposal of assets for free

- ❓ Go to **Goods & Services Tax > Transaction > GST Journal**
- ❓ Select **Type** and enter **Form No, Customer/Vendor Name, GST Number, Description** and **Based Amount**.
- ❓ In Journal Details section, select **Account Number** and Tax Code, enter the description and the amount. Then, click **+ Submit** button.

LESSON SIX

MODULE: BANK RECONCILIATION

General ledger allow users to create Journal entry, record the payment made or received, produce various report and summary of the transaction. This modules need to be setup carefully as it will result in the financial reporting statement.

1.0 How to do Bank Reconciliation

Bank reconciliation is a process that explains the difference between the bank balance shown in an organization's bank statement, as supplied by the bank, and the corresponding amount shown in the organization's own accounting records at a particular point in time

- Go to **General ledger > Report > Bank Reconciliation List**
- Select **Bank**, **Start Date** and **End Date**. Click  button.

#	Reconciliation Date	Deposit in Transit	Outstanding Cheque	GL Balance	Bank Statement	Action
1	31-01-2016	515,326.58	133,471.70	382,151.88	297.00	  

- The screen will show the list of previous bank reconciliation list, if any.
- You may edit previous reconciliation before start new reconciliation.
- Click  button to perform next reconciliation. You will be directed to the bank reconciliation page.

Bank Statement Date*	29-02-2016	Bank	CIMB BANK BERHAD (2200-100-00)
Last Reconcile Date	31-01-2016	Last Reconcile Statement	-27,338.90
Deposit in Transit	511,201.28	Outstanding Cheque	101,710.50
GL Balance	382,151.88	Bank Statement	-27,338.90

- To reconcile,
 - Select Bank Statement Date. E.g. 29th February 2017
 - Click  button.
 - The list of transaction will appear as follow:
